*Number preceding course indicates the unit value of course. Number following course indicates the number of any required prerequisite course.

*Course equivalents at local area community colleges are accessible from www.assist.org. Any student wishing to substitute other courses taken at CSULB must see the Undergraduate Advisor. Students wishing to do this should be alerted to two items:

1) Students with catalog years before Fall 2008 may not use courses in their major to satisfy the requirements of a minor.

2) Research Methods courses taken as a requirement of other majors are not generally considered equivalent to Psychology 220. Each discipline approaches research in its own way.
