## Dr. Green's Department News

Faculty members occasionally take sabbatical leaves. The leaves allow them a semester to focus on research and to absorb changes in their fields. The great thing about these leaves is that the faculty members return, typically recharged with renewed enthusiasm. Recently, Psychology faculty members have been taking leaves of a different sort, accepting invitations to work elsewhere. This year Dr. Bill Kelemen is on leave to become Chair of the Department of Psychology at Texas State University at San Marcos, and Dr. Bianca Wilson is on leave as a fellow at the Williams Institute in the UCLA School of Law to address issues of social justice. Next year Dr. Hannah-Hanh Nguyen will take leave for a position in the School of Business Administration at the University of Hawaii. The bad thing about these leaves is that the new positions can become permanent and the faculty members would not return. We hope they will return, but as the budget situation in the CSU continues to deteriorate it is possible that they will not.

Budgetary issues are leading the University to place increasing emphasis on advising at all levels, starting before entry into CSULB and then emphasizing the importance of meeting with an advisor at least once every semester until graduation. With the Highly Valued Degree Initiatives as a driving force, rules are changing with respect to GE, impaction, majors and minors, and repeat/delete. The new rules are supposed to speed progress towards the degree. Peer Advisors help everyone keep up with the changing rules. In this new environment, the training and knowledge of the Peer Advisors is increasingly important in helping students (and faculty) navigate the path to the Bachelor's degree. Their work is sophisticated, helpful, and appreciated. Special thanks go to their mentor Amy Jennings, our Undergraduate Coordinator, for keeping everyone on top of the changes and for making the needed adjustments – all with a positive attitude and a sense of good cheer.

--Ken Green
