STUDENT LEARNING OUTCOMES
FOR UNDERGRADUATE AND GRADUATE STUDENTS
Department of Romance, German, Russian Languages and Literatures
California State University Long Beach

The student learning outcomes developed by the Department of Romance, German, Russian Languages and Literatures at California State University, Long Beach align with the Standards for Foreign Language Learning (commonly referred to as the 5 Cs: Communication, Comparison, Connections, Culture and Communities) as well as the Foreign Language Framework for California Public Schools, Kindergarten through Grade Twelve. The student learning outcomes focus on reading, writing, cultural and linguistic knowledge, oral production, and, for more advanced students (upper-level B.A. and M.A. students), advanced research and analytical skills. Despite some variation across our B.A. programs in French, German, Spanish, and Italian and our M.A. programs in French, German, and Spanish, the department has created a coherent and consistent framework for the assessment of student learning outcomes that encompasses the main pedagogical and learning goals for all students in the department.

This document aims to inform students and the university community about our student learning outcomes. It also is meant to support faculty in their pedagogical efforts to ensure that syllabi and instruction are aligned across the department to help us meet our common goals. We carry out assessment of one primary student learning outcome (i.e., writing, reading, oral communication, cultural competency, and research skills) on an annual basis such that in a five-year period we are able to assess all of the five main categories of student learning outcomes. Below we provide a list of undergraduate and graduate student learning outcomes that relate to those larger categories.
